## Review: Sweet T Original Make-Up Bags

What They Say: "Big enough to fit everything, squishy enough to fit in your overfilled purse. All bags measure approx. 8" L x 5" H x 3.5" W"

Melissa's DeLush Downlow: With lots of beautiful prints and colors to choose from, these fabulously-stitched bags aren't simply functional (and they are!). They're also adorable and are made with high-quality, soft fabric and beautiful satin lining or playful printed fabric lining contrasting the outside. They definitely beat anything you can pick up at the drugstore, and plus you get the special touch of having an individually-made, indie designer item. I recently went to a family wedding over a weekend and got to test out my bag on the road, and I was able to fit in everything I really needed for those few days. It's definitely a special thing to own one these hand-finished make-up bags by Tanja.
