It's in the bag

The duvets were pulled over our heads, blinds down, we even forgot to cleanse, tone and moisturise. Yes, it was truly a day of mourning when Carrie Bradshaw skipped through New York with Mr Big and left her style protégées numb, nil and void.

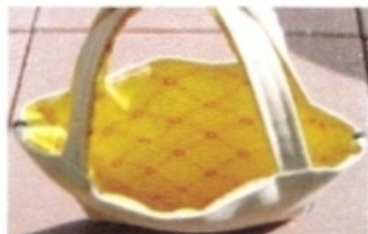

Hollywood 50s glamour makeup bags \$20 (approx £10.50)

So maybe, we can revive some of that Sex and the City glamour with the help of New York bag designer Tanja Koch of Sweet T Original.

Superstar Tote Bag \$35 (approx £18.50) original screen print by California-based artist Jeff Claassen.

All Sweet T Original products can be shipped out with love to the UK. For more information go to www.sweettoriginal.com

Daisy Tote Bag \$30 (approx £16)

Tanja's designs are all hand-finished, made from vintage and/or designer fabric (Marimekko, Missoni and Alexander Henry). But the best part is that due to the fact they're in New York, you're never going to have that mortifying copycat scenario on a night out. Carrie would never have experienced such a fashion faux-pas.

Tribal by Marimekko \$23 (approx 12.00) made from the 2000 Marimekko Tsunami fabric
